**YOU PROTECT THE THINGS YOU LOVE MOST.**

**SHOULDN'T THAT INCLUDE YOU TOO?**

No one expects a crash. But when it happens, anyone or anything with you in your vehicle is at risk. The people and things you love — like Max your tabby cat or the Fender Strat guitar that scored you your first kiss. Vehicle crashes in Florida are the leading cause of death among people 15 to 20. And last year, 53% of Florida teens who died in crashes weren't wearing a safety belt. So if you care about it — put a safety belt on it.

**That includes you.**
